

Bucket Calf Project

By Blythe Lust

I picked this project because I wanted to work with livestock, cattle in particular, but I knew I was too small to work with a full grown steer or heifer. This project really stood out because it was exactly what I wanted to do, work with animals.

While I have been in 4-H I have learned a lot about responsibility and sportsmanship. Overall it has been a great experience and would benefit anyone!

Hints and Tips for the Bucket Calf Project

- Don't be afraid to ask questions or for other help. Other 4-H'ers will be glad to help you
- Be patient with your calf, really it will just be a baby
- Make sure your calf trusts you. Trust is really the key! Work with your calf a lot to gain this trust!
