Personally I love horses so I decided to pursue that field in 4-H. I want other 4-Hers and people who are thinking about joining 4-H how much of a valuable experience it is. I learned from 4-H that your closest friends can also be your competitors and I truly learned the meaning of friendly competition. I would just hint to 4-Hers that you won't start on top and that's what makes it so memorable is the journey you and your horse take to improve and eventually get to the top. So don't get discouraged if you don't start out well.

Everything important in life takes time.
Just remember it's all about improving
and having fun.
