

## Sheep Lead Line

Hi, my name is Alissa Martindale and I have been in 4-H for five years. I enjoy showing cattle, horses, sheep, and rabbits. I also enter cooking in 4-H. Sheep lead is one of my favorite 4-H projects because I enjoy caring for my sheep and modeling. I have learned from sheep lead that wool is common in many types of clothing. Even though wool is hot and itchy, it can be made into some neat outfits. In the sheep lead class, 4-H'ers lead their sheep around while being judged on their wool outfit, the cleanliness of their sheep and how well they lead. Then, the 4-H'ers model their wool clothing and answer some questions from the judges about their sheep and their wool outfit. Sheep lead is a very unique and fun project. I would encourage any new 4-H'ers to participate in this creative class.
