

Why Woodworking?

The reason Rachel and Holly always picking projects from the wood working section would be their dad. He has a specialty in making projects and fixing things up. So he has always wanted us to, also. So every year we pick out things that we could use in our everyday life, such as a napkin holder, a step stool, and a small shelf. It's sort of a tradition! Spending time with dad type of thing!

It's fun and we learn how to use tools we don't get to use every day. We do enjoy it even though it's a "have-to-do thing! It's fun and definitely an experience, and yes girls can do it too, it's not just a boy thing. I think everyone should do it.

Rachel and Holly
