

Animal Science Overnight

THURSDAY, NOVEMBER 19-20, 2009

We are very excited that you have an interest in Animal Science and strongly encourage you to attend the upcoming Animal Science Overnight! This is an amazing opportunity to learn about our program of study, facilities, faculty members, and current students.

UNL Animal Science is hosting the 6th Annual Animal Science Overnight on November 19-20, inviting high school seniors to experience college life first hand! Thursday evening, you will take a tour of Memorial Stadium where you will get the opportunity to see first-hand where the heart of Husker football is located. We will also have fun eating pizza, bowling, and playing pool in the East Campus Union. You will spend the night in University housing, as the guest of a UNL Animal Science student host. Friday morning, you will get to experience your first college class with students currently enrolled in Fundamentals of Animal Biology and Industry (Animal Science 100). Also, you will attend a special hands-on lab session of this class. The day will finish with Animal Science Ambassadors answering any questions you may have.

Feel free to contact us with any questions or concerns. We look forward to seeing you on November 19th & 20th!
